

Find Your Small Business Loan

Let's Work Together to Get the Working Capital You Need

With banks currently rejecting 82% of small business loan applications, the days of driving to your local bank to get a business loan are long gone. Luckily, a booming industry of non-bank lenders have stepped in to fill this void. However, navigating your way through these online lenders can be an overwhelming and time-consuming process. That's where we come in.

Working with our partners at Fundera, we can help you secure a small business loan easily and quickly. With one application, we can apply to their full network of vetted lenders, ensuring you get the lowest-cost loan in the fastest amount of time.

Working Capital Without the Work

How Our Loan Preparation Service Works:

1. We'll begin an application on your behalf at Fundera, which aggregates dozens of lenders in one place.
2. We'll complete as much of the application for you as we can, including the preparation of supplementary documents and statements.
3. You'll then be invited to the application, where you can complete any information we were unable to, as well as authorize a credit check.
4. We'll submit your application to the appropriate lenders and wait to receive offers.
5. Once offers are received, we'll work together with a dedicated Fundera representative to understand the details of each offer and decide which one is best for your business.

Fundera Fans

"The help you get at Fundera is phenomenal. My customer success rep spent an hour and a half on our first call helping me understand my options."
Nicole Tott-Berger,
Co-Founder & CEO, Social Beauty Co.

"It was amazing how quickly we started and concluded. It took me only two weeks to find and get funding."
